NIC 00520-86
31 January 1986

MEMORANDUM FOR: Chairman, National Intelligence Council

FROM: Charles E. Allen
National Intelligence Officer for Counterterrorism
and Narcotics

SUBJECT: National Drug Enforcement Policy Board Meeting
3 February 1986

REFERENCE: ER 86 - 00317X, Same Subject

1. Subsequent to the Attorney General's letter (Attachment 1), there have been some changes to the agenda for the 3 February Policy Board meeting. The Vice President will not attend. Relevant information pertaining to each issue on the current agenda is attached (Attachment 2) for your background. These are arranged in the most probable order of consideration.

2. The NSDD on "Narcotics and National Security" is a key agenda item and could be a bit contentious. As you know, Mr. McMahon, as Acting Director, concurred in an earlier draft of the NSDD but suggested several minor changes to the draft. The NSC Staff incorporated all but one of these and you may wish to comment on this issue.

THE ATTORNEY GENERAL
WASHINGTON

Dear Bill:

The National Drug Enforcement Policy Board is scheduled to meet on Monday, February 3, 1986, at 10:00 a.m. in the Roosevelt Room.

We have an important business meeting on February 3rd as indicated by the enclosed agenda. The Vice President will share with us his observations on the drug enforcement effort, decisions in the form of setting or recommending policy are expected on items III, V, and VI, and OMB will present the resources devoted to drug enforcement programs as outlined in the President's fiscal year 1987 budget.

I look forward to seeing you at this meeting.

Sincerely,

Edwin Meese III

Enclosure

The Honorable William J. Casey
Director, Central Intelligence Agency
Headquarters Building
Washington, DC 20505

NATIONAL DRUG ENFORCEMENT POLICY BOARD DIRECTIVE NO. 1

Title: Drug Crisis Management

Purpose: To coordinate effectively the management of a narcotics-related crisis that may have an adverse impact on U.S. foreign relations.

Definition: A crisis is defined as a situation in which a narcotics-related incident has any of the following consequences: 1) it involves the life or safety of a U.S. government official; 2) it affects broader U.S. interests in a given country or region; or 3) it generates a sufficiently strong reaction from the country or countries affected to require an immediate, coordinated response by other U.S. departments or agencies.

Triggering Mechanism: When an actual or potential crisis is identified by, or brought to the attention of, a department or agency, the PD-27 procedure (see below) should be activated by calling the Department of State Operations Center at (202) 632-1512.

Presidential Directive/NSC-27: When the PD-27 procedure is activated to address an international drug-related crisis, representatives at the chief of operations level from the attached list of departments and agencies (Appendix 1) will be alerted immediately by the Operations Center and will participate in the initial conference call (day or night) or, if necessary, in an interagency meeting. If agreement is not reached on how to address the crisis, agency representatives will refer key recommendations or decisions to the sub-cabinet/agency head level before referring the matter to the National Security Council.

PD-27 (see Appendix 2) is designed "for dealing with various types of non-military incidents which could have an adverse impact upon the conduct of our foreign relations." PD-27 states that "the Department of State will have primary responsibility to coordinate government planning and public statements for dealing with such incidents ..." In the context of drug crisis management, such an incident would be considered as one which is taking on the dimensions of an actual or potential crisis situation as defined above. PD-27 also states that "Nothing in this Directive is intended to alter or restrict the statutory or other existing authority of any Department of Agency for the enforcement of the laws of the United States."

It is the responsibility of the Operations Center working with the participating agencies to see that the attached PD-27 contact list is kept current.

NSC: If interagency consensus on how to deal with a crisis cannot be reached through the PD-27 process, or if the crisis is considered serious enough, the matter will be referred to the Crisis Pre-Planning Group (CPPG) under the existing NSC crisis management system.

EDWIN MEESE III
Chairman
National Drug Enforcement
Policy Board

December 18, 1985
